

IOWA KIDSIGHT
 A JOINT PROJECT OF
 THE LIONS CLUBS OF IOWA AND
 THE UNIVERSITY OF IOWA HOSPITALS & CLINICS
 DEPARTMENT OF OPHTHALMOLOGY & VISUAL SCIENCES

September 12, 2012

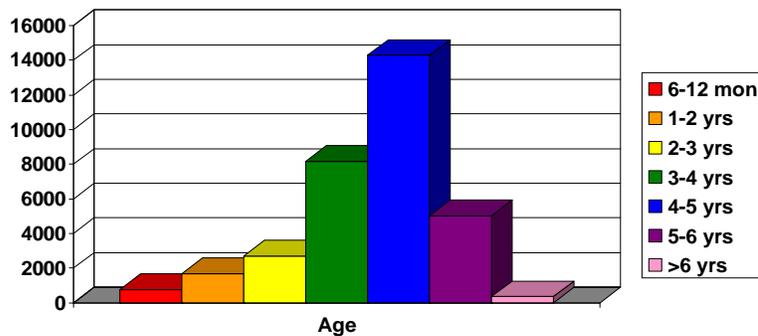

Gretchen Hageman, Chief
 Bureau of Family Health
 Iowa Department of Public Health
 Lucas State Office Building
 321 East 12th Street
 Des Moines, IA 50319-0075

Chief Hageman:

I am writing to submit the final report of Performance Measures outlined in Article VII of Contract # 5882VS01. It has been another successful year for Iowa KidSight! A highlight was the publication of a children’s book titled “So Much More To See,” which educates the public on the importance of early detection and treatment of vision problems, and also helps prepare children for the vision-screening experience. A copy of the children’s book is enclosed. Contract measures:

- Submission of a work plan including time lines: *See Attachment I.*
- The percent of children age four and under who received a vision screening=83.7%

**Age of Children Screened
 July 1, 2011 – June 30, 2012**

- The percent of children screened who were referred for follow-up = 5.61%
- The percent of children referred who received follow-up as documented by return of the referral by an ophthalmologist or an optometrist = 69.43%*
- The percent of children who received follow-up who have a vision abnormality = 41.35%*

* Percentages will increase as follow-up effort continues for a full year post screening date.

- The number of new volunteers trained to use the PhotoScreener during the contract period = 227
- The total number of volunteers active in providing the screening during the contract period = 358+

+Lions Clubs will often take along extra helpers (“Escorts”) to carry out vision-screening sessions. Only the Club Contact and Photographers are recorded and logged, so this figure could realistically be doubled. There were 150 different Lions Clubs extending the service during the contract period.

- The location and number of active volunteers shown on a state map:
See *Attachment II* and the note directly above concerning active volunteers.
- A description of the education activities including content, method, frequency, and evaluation of effectiveness:

Most educational activities are done upon request. These include informational sessions for Iowa Lions Clubs, training sessions for Iowa Lions Club Volunteers, participation in health fairs, and informational meetings with different interest groups. An annual meeting for Iowa KidSight Coordinators and Trainers is also an educational activity. Following are the detailed descriptions of each.

Informational sessions for Iowa Lions Clubs (~ 2 per month): Lions Clubs request guest speakers to visit their Clubs to conduct informational sessions on Iowa KidSight. The speaker is most often the Program Coordinator or Lion District Coordinator. The content describes what the Program is, who carries it out, how it is carried out, why it is carried out, Program progress, and also provides time for questions and discussion. The information is delivered depending on the Club’s request, e.g., PowerPoint presentation, viewing of informational video, lecture/handouts. Evaluation of effectiveness could be measured by the Club’s further decision to support or participate in the Program.

Training sessions for Iowa Lions Club Volunteers (~ 3 per month): Lions Clubs who decide to adopt Iowa KidSight as a community service project request training sessions to become certified to screen. A board-certified Orthoptist from the University of Iowa Hospitals and Clinics Department of Ophthalmology and Visual Sciences “trains the Trainers.” There are 25 Iowa Lions Club volunteers who have assumed the role of Trainer throughout the state. The content of the training sessions includes specific instructions on the processes involved in conducting screening sessions, hands-on practice with the PhotoScreener, and practice and testing on what makes an interpretable screening photograph. Trainers use PowerPoint presentations that include this content, and also provide those being trained with a typed Training and Review Packet for taking home. The Packet outlines screening roles and processes, step-by-step. Once the ~three-hour training session is complete, each participant is asked to complete an Evaluation Sheet which is used to monitor the effectiveness of the training session/Trainer.

Participation in Health Fairs (~12 annually): Lions Clubs will decide to participate or receive requests to participate in health fairs (or County Fairs) in their local communities. Sometimes screenings are offered if the location of the fair is conducive. If not conducive for screening, informational brochures and handouts on why screenings are necessary and how to request one are handed out. Evaluation of effectiveness could be measured by how many screenings are conducted as a result of the educational material being distributed. Vision screenings and educational information are also extended during the Iowa State Fair each year.

Informational meetings with different interest groups (~6 annually): The majority of these round-table meetings are requested by collaborators. Content includes information on how Iowa KidSight is carried out, how screening sessions can be requested, and how programs can work together. Evaluation of effectiveness could be measured by resulting collaborative efforts and/or further screenings being conducted.

Annual Meeting of KidSight Coordinators and Trainers: The content of these educational sessions include updating volunteer leaders on Program methodologies, Program progress, collaborative efforts, and discussing current situations at-hand. These annual round-table meetings are mandatory for those volunteers assuming leadership roles. Participants are asked to evaluate the content of each meeting on a Communication Sheet that they utilize throughout the meeting. These meetings were once conducted bi-annually but due to recent budget cuts they are currently held on an annual basis.

- Description of the mechanism for assuring that the list of eye doctors contains current referral information:

The Iowa KidSight office receives annual lists of membership from the Iowa Academy of Ophthalmology and the Iowa Optometric Association. These lists are compared with previous listings of Iowa eye care professionals and updates are incorporated into a database maintained by Iowa KidSight office staff. Additionally, each Referral List contains a note indicating that Iowa KidSight appreciates receiving updates and corrections, and provides contact information to do so.

This fiscal year we incorporated a “welcome letter” to new providers. The letter describes how the Iowa KidSight program is carried out and it also describes the importance of returning the Evaluation Sheet to the KidSight office after exams are conducted as the result of a vision-screening referral.

- Documentation of the measures taken to assure that AEAs, Head Start Programs, WIC Clinics and elementary schools receive information regarding coordination and integration of services provided:

The scheduling of vision screenings is done at the local level by Iowa Lions Club volunteers. Screening sessions are primarily held in childcare settings and might also be held in a public location and advertised to the public. Lions Clubs collaborate with their neighbors who are employees of AEAs, Head Start Programs, WIC Clinics and elementary schools to coordinate and schedule collaborative screening activities locally. Collaborative screening sessions conducted in 2011-2012: 70-AEA, 27-WIC, 270-Head Start, 38-Kindergarten Roundups.

- In my capacity as Program Manager, I assure that 100% of Iowa Community Empowerment Programs were sent a letter detailing:
 - a. A description of how free vision-screening sessions are conducted,
 - b. How to request a screening,
 - c. Ways Iowa KidSight can keep Community Empowerment areas informed of screening activity in local areas.
- In my capacity as Program Manager, I assure that 100% of AEAs, Head Start Programs, WIC Clinics and elementary schools* receive information regarding coordination and integration of services.

* Elementary schools are only served upon particular request as this age group is not part of the Iowa KidSight target population. Most all screening activity done in elementary schools is done in conjunctions with kindergarten round-up events.

“We found out my son had severe amblyopia in December 2011 due to your program and probably would not have realized it until it was too late for treatment.”

For the 12th consecutive year, more Iowa children were reached than in previous years:

Program Year #		# of Sessions	# of Children Screened	# of Children Referred	F-U PPV
1	(May 2000-April 2001)	114	1524	109 (7.15%)	88%
2	(May 2001-April 2002)	370	5268	278 (5.28%)	86.47%
3	(May 2002-April 2003)	700	9547	422 (4.42%)	87.32%
4	(May 2003-April 2004)	1000	14,837	719 (4.85%)	95.17%
5	(May 2004-April 2005)	1097	16,772	670 (3.99%)	96.35%
6	(May 2005-April 2006)	1286	19,261	628 (3.26%)	97.99%
7	(May 2006-April 2007)	1502	23,157	783 (3.38%)	97.12%
8	(May 2007-April 2008)	1787	27,581	1066 (3.86%)	97.04%
9	(May 2008-April 2009)	1888	29,840	1574 (5.27%)	94.79%
10	(May 2009-April 2010)	2004	30,636	1484 (4.85%)	87.68%
11	(May 2010-April 2011)	2001	32,272	1629 (5.05%)	86.67%
12	(May 2011-April 2012)	1998	33,315	1858 (5.58%)	41.59%
TOTALS:		15,747	244,010	11,221 (4.60%)	84.31%

9/5/2012 "snapshot"

The support extended through the Iowa Department of Public Health is a key factor in the ability to continue to save vision capabilities for our Iowa youth. Thank you for your support!

Sincerely,

Lori Short
Program Manager, Iowa KidSight

Attachments (2) Enclosure (1)

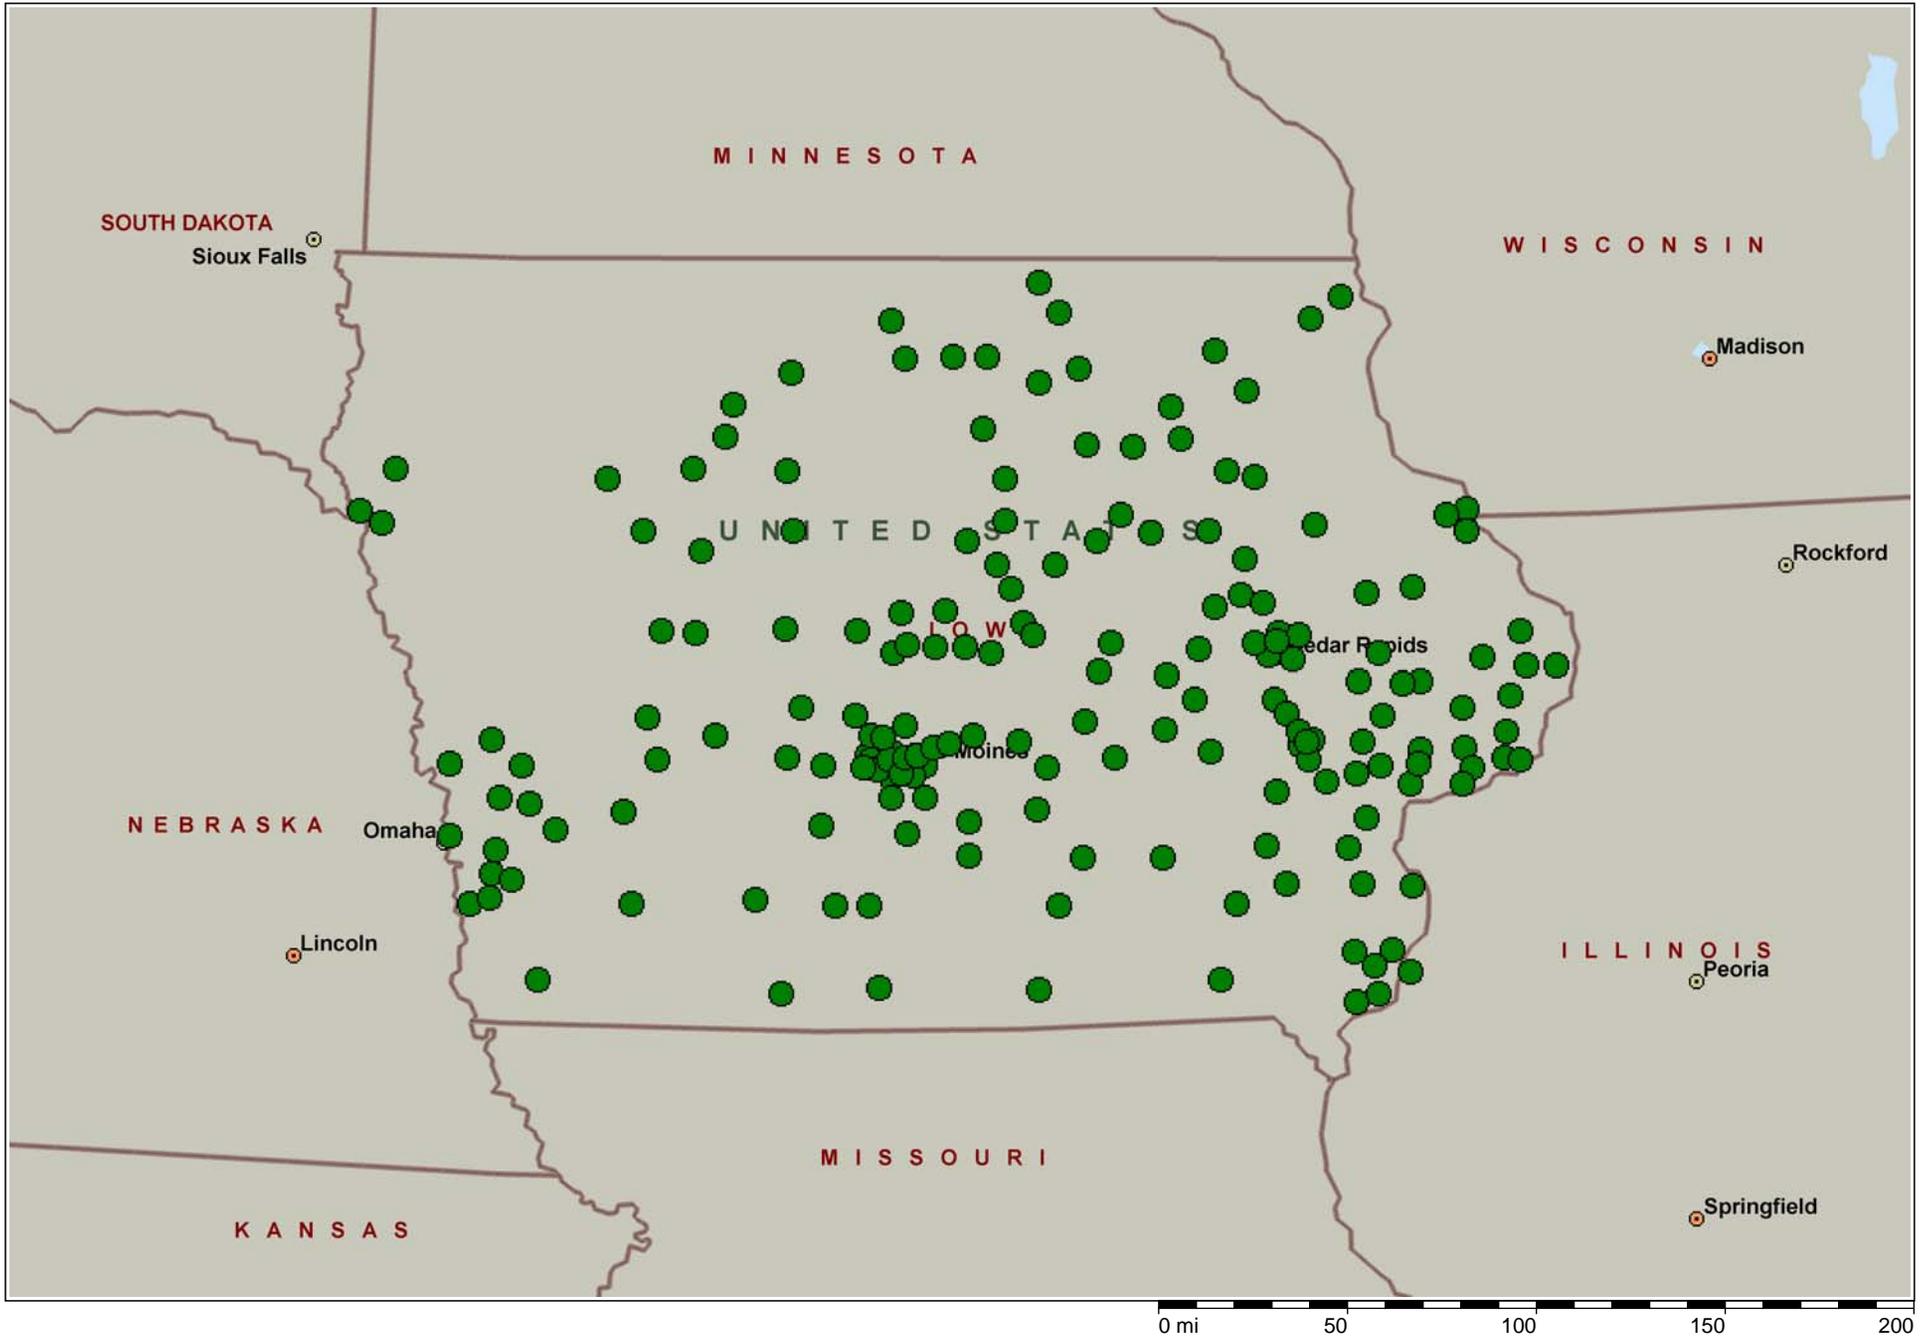

Work Plan: Fiscal Year 2011 – 2012

	Responsible Party	Targeted Due Date	Milestones and Deliverables
<p><u>Objective 1</u></p> <p>Objectively screen vision in infants and young children throughout Iowa at no cost to the public.</p> <p>(Goal) Number of children who will be screened = 33,000</p>	Lions Club Volunteers	<p>On-going throughout year.</p> <p>June 30, 2012</p>	<p>Number of infants and young children screened throughout Iowa July 1, 2011 – June 30, 2012 = 32,970.</p>
<p>Activity 1:</p> <p>Provide training for Iowa Lions Clubs who wish to adopt Iowa KidSight as a local community service project.</p>	Iowa KidSight Trainers (25)	On-going throughout year.	<p>Training sessions were conducted for 40 different Iowa Lions Clubs. Additionally, 3 University of Iowa vision-interest student groups received training.</p> <p>A total of 227 individuals received training during the 2011-2012 fiscal year.</p>
<p>Activity 2:</p> <p>Encourage Iowa Lions Clubs to participate through Club Visits and publications received by Iowa Lions.</p>	<p>Program Mgr., Lion District Coord. (9), Dist. Governors (7) & Trustees (14)</p>	On-going throughout year.	<p>Program Manager made 18 visits to different Clubs in encourage participation. Lion District Coordinators/Governors/Trustees pay a visit to each of the Iowa Lions Clubs each fiscal year, incorporating Iowa KidSight information into presentations. Information on the Iowa KidSight program is included in each monthly edition of "The Iowa Lion."</p>
<p>Activity 3:</p> <p>Utilize Rapid Response Screening Teams to meet screening requests when there is not an active Lions Club locally.</p>	Iowa KidSight Office Staff, & Lion District Coordinators	On-going throughout year.	<p>There were 30 random screening sessions recorded as being requested. All requests for the service were met.</p>
<p>Activity 4:</p> <p>Incorporate additional screening devices into Program.</p> <p>(Goal) <i>Digital</i> screening device(s)--to begin replacing instant film technology.</p>	Program Manager	June 30, 2012	<p>Three additional PhotoScreeners were incorporated, primarily for parts. <i>Digital</i> trials were completed in March 2012, and <i>nine</i> new iScreen 3000 digital devices were incorporated! (Woo hoo!)</p>

<p>Activity 5:</p> <p>Assure that the screening images taken are sent to the University of Iowa Hospitals and Clinics to be evaluated by appropriate medical specialists.</p>	<p>Lions Club Volunteers and Iowa KidSight Office Staff</p>	<p>On-going throughout year.</p>	<p>Name of medical specialist who evaluates each screening photograph is logged in database.</p>
<p>Activity 6:</p> <p>Report screening results to parents and collaborators.</p>	<p>Project Assistants</p>	<p>On-going throughout year.</p>	<p>Noted the date results were mailed, and to whom, on Vision Screening Routing Forms.</p>
<p><u>Objective 2</u></p> <p>Educate the public about the risk of undetected/untreated vision loss.</p>	<p>Lions Club Volunteers and Iowa KidSight Office Staff</p>	<p>On-going throughout year.</p>	<p>After a year in the making, a children's book titled "So Much More To See" was published and is now available as a public education tool! www.IowaKidSight.org</p>
<p>Activity 1:</p> <p>Provide informational brochures for parents to keep.</p>	<p>Lions Club Volunteers and Iowa KidSight Office Staff</p>	<p>On-going throughout year.</p>	<p>Informational brochures distributed to parents along with screening Consent Forms.</p>
<p>Activity 2:</p> <p>Participate in Health Fairs.</p>	<p>Lions Club Volunteers</p>	<p>On-going throughout year.</p>	<p>Participation in 21 Health/Child Fairs was recorded this fiscal year. Public education materials were also distributed during the 11-day Iowa State Fair.</p>
<p>Activity 3:</p> <p>Assure that the parents or guardian of any child with an abnormal PhotoScreener image is sent a referral letter and information on local ophthalmologists and optometrists who provide care to infants and young children.</p>	<p>Project Assistants</p>	<p>On-going throughout year.</p>	<p>Documented in database and in screening session folders.</p>
<p>Activity 4:</p> <p>Conduct follow-up on any child with a "referral" screening result when an Evaluation Sheet is not returned by an eye care professional, within three months of reporting of screening results.</p>	<p>Follow-Up Coordinator</p>	<p>On-going throughout year.</p>	<p>Documented individual details in Follow-Up Logs on all children referred who required follow-up effort.</p>
<p><u>Objective 3</u></p> <p>Support coordinated community-based services and follow-up.</p>	<p>Lions Club Volunteers and Iowa KidSight Office Staff</p>	<p>On-going throughout year.</p>	<p>Conducted screening sessions upon request of collaborating agencies (Area Education Agencies, Head Start Programs, WIC Clinics, Elementary Schools [for kindergarten round-ups], Public Health and Community Empowerment Programs). Children referred locally to eye care professionals.</p>

<p>Activity 1:</p> <p>Send letters to each Iowa Community Empowerment Program, Area Education Agency, Head Start program and WIC clinic to update them on the Iowa KidSight program, describing how free vision-screening sessions are conducted, how to request a screening, and ways Iowa KidSight can communicate local screening activity.</p>	<p>Program Manager</p>	<p>February 18, 2012</p>	<p>Letters mailed January 4, 2012.</p>
<p><u>Objective 4</u></p> <p>Ensure Quality Assurance and Improvement.</p>	<p>Iowa KidSight Office Staff and Lions Club Volunteers</p>	<p>On-going throughout year.</p>	<p>Iowa KidSight Steering Committee met quarterly; review of activities and quality assurance/improvement is primary duty of Committee.</p> <p>Ran and reviewed monthly screening activity and performance reports.</p>
<p>Activity 1:</p> <p>Request evaluations on Training Sessions after they are conducted.</p>	<p>Iowa KidSight Trainers and Trainees</p>	<p>On-going throughout year.</p>	<p>Reviewed by Program Manager and recorded with Training Session Sign-In Sheets</p>
<p>Activity 2:</p> <p>Track Predictive Value Positive "PPV" (i.e., results of examination by eye care professional that match screen results on children referred from a screening and who complete follow-up request).</p>	<p>Iowa KidSight Medical Staff</p>	<p>On-going throughout year.</p>	<p>Entered screening and examination results into database. Data part of monthly and periodic reporting/review process.</p>
